

DataArt partners with ensign digital

to offer customized digitalization solutions

Munich – March 07, 2024

DataArt, a global software engineering firm, has announced a strategic partnership with [ensign digital](#), part of [ensign advisory](#), one of the leading consulting boutiques focused on mechanical engineering and automation technology. This partnership aims to provide digitalization solutions to the technical industrial goods as well as the machinery- and automation-technic industry.

DataArt and [ensign digital](#)'s collaboration will provide businesses with the necessary tools and expertise to implement digital strategies effectively, focusing on achieving operational excellence and competitive advantage.

Vladislav Prilutskiy

Engagement Manager at DataArt

“The new strategic partnership will help businesses of all sizes to accelerate their digital transformation journeys. By combining our technological expertise with [ensign digital](#)'s industry insights, we can offer tailored solutions that drive efficiency, innovation, and growth.”

Dr. Achim Wapniewski

Managing Partner and founder of [ensign digital](#)

“With DataArt, we now have a partner at our side with whom we can implement customer requirements for solutions along the entire value chain. This allows us to systematically and sequentially accompany our customers on their journey in an E2E process.”

As a trusted technology partner to industry leaders, DataArt is committed to delivering cutting-edge solutions that meet the unique needs of each client. Through this partnership, DataArt and [ensign digital](#) will work together to empower businesses to navigate the complexities of digitalization, ensuring they remain at the forefront of their industries.

ensign advisory is an independent, internationally active consulting boutique based in Düsseldorf. Founded in 2015, the growing team advises medium-sized companies and international group companies with a focus on the industrial goods sector as well as the machinery- and automation sector.

From strategy to implementation, ensign advises and supports its clients in the areas of reorganization and profit optimization in both shrinking and growing markets. Clients benefit from the consultants' many years of experience in line and management positions at well-known industrial companies as well as corporate and management consultancies. Build on this in-depth expertise, ensign advisory has brought additional experts into the team, creating ensign digital. ensign digital focusses on the digitalization and digital transformation along the entire value chain of their customers, including business model development, development of service business, and data analytics, delivering best practices and innovative solutions.

As a result of this unique mix, customer requirements are not blindly adopted, but reviewed and further developed against the background of the respective objectives and feasibility. This results in a catalog of criteria that is tailored to the specific individual requirements and leads to an optimal solution.
